

Built-in device

Apart from keeping your food fresh, this Tesla built-in fridge is made to perfectly fit into any kitchen interior - it's cleverly hidden when you look from the outside, and elegantly designed inside.

Super freezing

Use the super freezing feature when you're storing food in the freezer: this option makes different groceries freeze even faster, so all the necessary nutrients remain intact.

Electronic controls

This Tesla device has electronic controls, which means you can simply set desired temperature, as well as easily activate other useful features and options.

LED light

LED light lasts longer when compared to conventional lighting, and it enables more efficient and reliable inside illumination - so you can easily see every corner of the fridge.

Adjustable glass shelf

You can adjust the glass shelf to the height you want, for additional convenience and flexibility. If there's no room for a large dish you need to put inside, simply move the shelf up!

Door alarm

A beeping signal will sound if you leave the refrigerator door open for longer than is recommended, reminding you to close it and stop the warm air from raising the inside temperature.

COOLING SYSTEM	
Refrigerant (R600a/R134a)	R600a (62g)
Inverter Motor	No
Defrost system	Manual
Air flow system	No
Foaming Agent	Cyclopentane
Energy Class	F
Energy Consumption (kWh/24h)	0.742 kWh/year
Energy Consumption (kWh/year)	271 kWh/year
Climate Class	N/ST
Star Rating	4 star
Noise Level	39 dB
Power	115 W
Voltage	220V-240V~
Frequency	50 Hz
Current	0.75 A
GENERAL FEATURE	
Number of Doors	2
